

Supplementary Material to: Evaluation of the occurrence of multiple paternity in *Squalus acanthias* in the South Atlantic region using nuclear markers

Table S2 - Identification of the samples used in the study, highlighting the location of the specimens from this study marked in gray (●). The sequences available in the online databases GenBank and BOLD systems are presented with their respective accession numbers and references.

Species	Location	GenBank accession	Sequence ID BOLD	Reference
<i>Squalus acanthias</i> ●	Argentina: Mar del Plata	PQ142940.1	-	Present study
<i>Squalus acanthias</i> ●	Argentina: Mar del Plata	PQ142941.1	-	Present study
<i>Squalus acanthias</i> ●	Argentina: Mar del Plata	PQ142942.1	-	Present study
	Argentina: Puerto de Santa Cruz	PQ142937.1	-	Present study
<i>Squalus acanthias</i> ●				
<i>Squalus acanthias</i> ●	Argentina: Puerto de Santa Cruz	PQ142938.1	-	Present study
<i>Squalus acanthias</i> ●	Argentina: Puerto de Santa Cruz	PQ142939.1	-	Present study
