Table S1. Analysis of variance (ANOVA) table showing the effects of the variables and their interactions, and the R² value

Factor	VAR.: R ² = 0.87121
	Residue: 0.0050144
	Effect
Curvature	0.028450
1 Surfactant concentration	0.006765
2 Sonication time	0.115770
3 Water bath heating	0.037869
4 HNO ₃ concentration	0.005388
1 with 2	0.001099
1with 3	0.007569
1with 4	0.002079
2 with 3	0.010962
2 with 4	0.015006
3with 4	0.006488

R²: coefficient of determination.
