

ESTUDO DA OXIDAÇÃO PARCIAL DO ETANOL EM CATALISADORES DE Rh POR DRIFTS

Raquel Lima Oliveira e Fabio Barboza Passos*

Departamento de Engenharia Química e de Petróleo, Universidade Federal Fluminense, Rua Passos da Pátria, 156, 24210-240 Niterói – RJ, Brasil

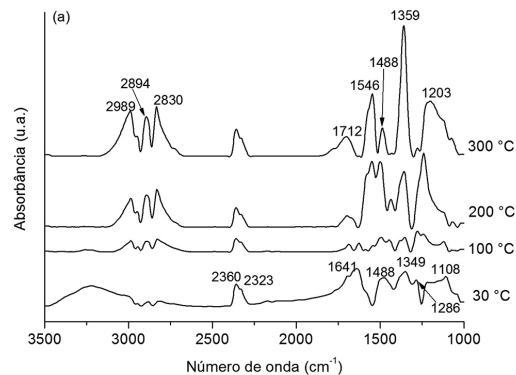

Figura 1S a-b. Espectros de DRIFTS obtidos sob a mistura reacional etanol/ O_2 a diferentes temperaturas no suporte $\gamma-Al_2O_3$

Figura 2S a-b. Espectros de DRIFTS obtidos sob a mistura reacional etanol/ O_2 a diferentes temperaturas no suporte CeO_2

Figura 3S. Espectros de DRIFTS obtidos sob a mistura reacional etanol/ O_2 a diferentes temperaturas no suporte $Ce_{0,50}Zr_{0,50}O_2$
