

Supplementary Table 1

Summary of information of the studies used in the meta-analysis: type of publication, the state of Brazil, environmental conditions (field, greenhouse, or seed lots), cultivation year, experimental factors evaluated in each study, average content of each macronutrient in soybean seeds, and number of observations obtained in each study.

Study Author(s) (year of publication)	State	E ¹	Year(s) of the study ²	Experimental factor evaluated	Average macronutrient content, in kg Mg ⁻¹ of seeds (number of observations)						
					N 57.5 ³ (315) ⁴	P 5.4 (468)	K 17.5 (431)	Ca 2.5 (344)	Mg 2.5 (360)	S 2.9 (227)
