

**Supplementary Table S1** Basic Information on adverse event reports for fluvoxamine

| Factor             | Number of events (%) |
|--------------------|----------------------|
| Sex                |                      |
| Female             | 173 (48.7)           |
| Male               | 145 (40.8)           |
| Unknown            | 37 (10.4)            |
| Age                |                      |
| < 18               | 39 (11.0)            |
| 18-64              | 188 (53.0)           |
| 65-85              | 36 (10.1)            |
| > 85               | 7 (2.0)              |
| Unknown            | 85 (23.9)            |
| Weight             |                      |
| < 50 kg            | 15 (4.2)             |
| 50-100 kg          | 49 (13.8)            |
| > 100 kg           | 11 (3.1)             |
| Unknown            | 280 (78.9)           |
| Reported countries |                      |
| United States      | 87 (24.5)            |
| Japan              | 56 (15.8)            |
| Croatia            | 26 (7.3)             |
| Italy              | 26 (7.3)             |
| Canada             | 24 (6.8)             |
| France             | 16 (4.5)             |
| Germany            | 15 (4.2)             |
| India              | 15 (4.2)             |
| Unknown            | 10 (2.8)             |
| Switzerland        | 10 (2.8)             |
| Others             | 70(19.7)             |
| Reporter           |                      |
| Physician          | 259 (73.0)           |
| Pharmacist         | 96 (27.0)            |

Outcomes

|                                                              |            |
|--------------------------------------------------------------|------------|
| Congenital anomaly                                           | 2 (0.6)    |
| Death                                                        | 32 (9.0)   |
| Disability                                                   | 7 (2.0)    |
| Hospitalization - Initial or prolonged disability            | 115 (32.4) |
| Life-threatening                                             | 17 (4.8)   |
| Other serious (important medical event)                      | 141 (39.7) |
| Required intervention to prevent permanent impairment/damage | 1 (0.3)    |
| Unknown                                                      | 40 (11.3)  |

## Report year

|      |           |
|------|-----------|
| 2004 | 7 (2.0)   |
| 2005 | 12 (3.4)  |
| 2006 | 5 (1.4)   |
| 2007 | 3 (1.4)   |
| 2008 | 7 (2.0)   |
| 2009 | 4 (1.1)   |
| 2010 | 13 (3.7)  |
| 2011 | 1 (0.3)   |
| 2012 | 2 (0.6)   |
| 2013 | 12 (3.4)  |
| 2014 | 12 (3.4)  |
| 2015 | 21 (5.9)  |
| 2016 | 22 (6.2)  |
| 2017 | 35 (9.9)  |
| 2018 | 35 (9.9)  |
| 2019 | 39 (11.0) |
| 2020 | 28 (7.9)  |
| 2021 | 24 (6.8)  |
| 2022 | 27 (7.6)  |
| 2023 | 31 (8.7)  |
| 2024 | 15 (4.2)  |
