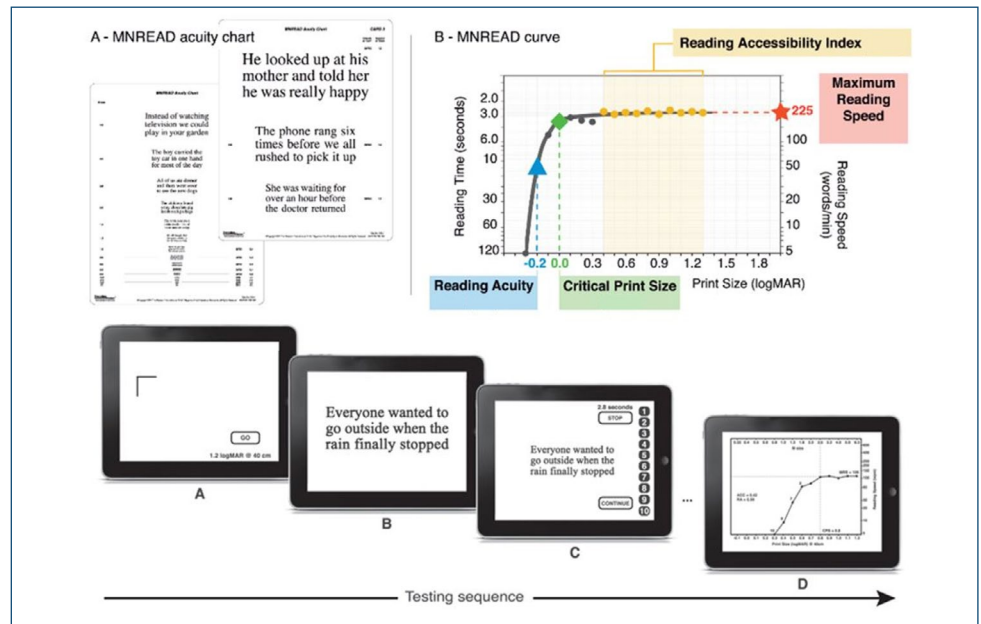

Figure 1S. Page of the Minnesota Low Vision Reading Test (MNREAD) acuity chart. Minnesota Low Vision Reading Test testing sequence using the iPad application. (A) Preparation screen displayed before each sentence; (B) After the researcher clicks the "GO" button, the first sentence is displayed in the center of the screen, launching the time recording; (C) Once the participant is read, a simple click stops the trial and records the reading time. A score screen appears, allowing the researcher to enter the number of errors and launch the next trial. (D) When reading becomes impossible, the test is stopped, and the application displays the MNREAD data plot and parameter estimates.⁽¹⁹⁾
