

Supplementary Material to “Modelling of the Potential Distribution of Angelim Species in the Amazon for Conservation of Genetic Resources”

Table S1. Algorithm configuration and pseudo-absence generation.

Algorithm	Package / framework	Parameter settings	Pseudo-absence method	N pseudo-absences
MaxEnt	ENMTML	Default (RM = 1.0; LQH features)	Environmental contrast	1,000
Random Forest	ENMTML	Default	Environmental contrast	1,000
SVM	ENMTML	Default	Environmental contrast	1,000
